BRIEF ABSTRACT OF LETTER

Submits a list of 1000 villages in the several districts of the State where he proposes to start aided Village Elementary schools, and recommends certain relaxations of the new grant-in-aid rules to facilitate the opening of these schools

NOTES AND ORDERS

The number of the Schools to be started in the several districts is as follows —

Bangalore	106	Chitaldrug	113
Kolar	89	Hassan	71
Tumkur	145	Kadur	84
Mysore	317	Shimoga	75

2 The recommendation of the DI of Edn in connection are –

(1) That he may be authorized to abolish the Schools through the agency of the Asst Coms of the Econ Confs or prevalent other agency of the DI being given discretion to substitute other places for the villages now mentioned, if found necessary

(2) That it should be laid down that each pupil's parent is expected to contribute for his child's edn on pain of the pupil being sent away from the School in case of non-payment, ½ to 6 seers of rags or paddy or other grain being prescribed as the amount of annual contribution per pupil option being given to commute it into a money payment

(3) That as the under rule 5(1) of the grant in aid Code there is no authority for the DI to disburse the grant for each teacher on monthly bills, & as the teacher requires immediate help, the DI may be authorized to disburse at once from the date of recognition, the amount of grant, the rate of grant per pupil being also relaxed for 2 or 3 yrs to come

(4) That as an inducement for good work successful masters of aided Schools should

NOTE—Contn sheet

be taken to Govt service from time to time as vacancies are found, and a third of successful and ethical aided schools should be converted into Govt institutions

(5) for the current year the cost of the schools, as many as can be started this year, will be met from the special provn of 1 lakh

3 The grant for each school is taken at Rs 5 to Rs 7, and the DI says that the maxm cost at Rs 7 for 1000 schools, viz Rs 84000 can be met from the provn made for primary edn in the triennial programme of expe

4 The statement that as the rules now stand there is no authority for the DI to disburse the grant for each teacher on monthly bills does not seem to be correct in view of rule X 4 which specifically states that the grants under rule IV (a), (b) & (b) shall ordinarily be disbursed monthly on bills countersigned by the DI of edn

7 The proposals of the DI may be approved even though they involve departure from the grant-in-aid rules so recently passed by Govt

8 Subject to the financial limit of 84 000 Rs fixed by Govt the DI may be given the discretion to expend the amount in grants in aid to such schools, sending to Govt a quarterly statt of schools at work & grants made during the quarter. There is no use in requiring him to address Govt in regard to each school or each batch of schools previous to starting them.

If 1st member approves proposals generally file copy may be circulated

CSB 4/3

9 The Inspector General's proposals virtually amount to starting a lower class of Government primary schools, with lower pay than minimum of Rs 10 prescribed for teachers, with fees in kind imposed on pupils and with perhaps a less comprehensive curriculum. The Rules of Government that primary

NOTE—Contn sheet

GPB—60 000—7 11 13

Serial No

Education in Government Schools should be free, and (2) that school masters should be paid a minimum salary of Rs 10/- ~~are~~ are too important to be set aside

10 I would therefore propose the following modifications The Inspector General may sanction a monthly grant ~~to~~ of 5 to Rs 7/- The teacher should have the liberty of charging fees not exceeding a scale to be settled by the Inspector General where such schools exist, Government Schools should not be started so long as they fairly meet the needs of the village concerned The other precautions mentioned by the Inspector General may be employed to ensure the stability and progress of these schools The Inspector General may be given the power of sanctioning these grants within the general rules laid down by Government

The Financial Depatm

14 The Dy proposes

(a) That the list of 1000 villages be approved by Govt

(b) That Dy may be authorized to start aided schools in them

(c) That Dy be empowered to substitute other places for villages in

(d) That it be specifically laid down that each grantee is to contain
40 to 60 acres of grass per pupil per annum

(e) That in order of grant in-aid under the Dy he authorized
to disburse monthly a grant of Rs 5 to Rs 7 per month instead
of Rs 48 per teacher plus 8 as to Re 1 per pupil per annum

15 As regards (a) (b) & (c) there is no difficulty &
Dy may moreover be told that Govt are ready to sanction

NOTE—Contn sheet

CPB—50 000—12-8 10

Serial No

grants for as many more schools as may be opened by him

(d) is a departure from the policy of free primary Edn Instead of requiring each guardian to pay so much per pupil per annum, the village collectively should agree to support the school & find what is necessary over & above the Govt grant

(e) The rate Rs 48/ per teacher per annum plus 8 as to Re 1/ per pupil per annum is a very sound method A school with 12 pupils will get Rs 60 per annum one with 24 pupils Rs 72/ per annum one with 36 pupils 84 per annum & so on Of course the pays may be authorized to be made monthly. It would be convenient if on the reverse of the bill a certified copy of the attendance roll for the month is given.

---

16 In my respectful opinion the policy of Govt should in this matter should be to definitely lay down the conditions & standards and let the Dy sanction grants in aid to as many schools as possible which satisfy those conditions & standards. There is no fear of the cry want of funds being raised in this matter If every village in the State were to have its primary school, there would be money to pay a reasonable grant in aid to it from State funds The chief conditions & standards are

(1) The school must be in an area which has not already got a sufficient number of schools for the whole population

(2) A teacher who has passed at least the Lower Secondary Exn

(3) A suitable building

(4) attend 15 children on the rolls with a daily average attendance of 10

(5) Suppcent contribution in money or in kind so that combined with the first grant it may give about Rs 10 a month atleast to the teacher

Most of our villages are willing & able to conform to these conditions The work to be done is to organize & give shape and articulation to their desire

17 Whatever the agency which organizes the villagers & makes them come up with these conditions there need be no hesitation to sanction a grant in aid as soon as a reasonable guarantee of the supplement is forthcoming.

Draft final note

Fair Draft

One of the proposals of the Economic Conference which Govt approved generally in their order no 1633-4 / Edn 37-12-2 § 20, & 1912, was the establishment and maintenance of the 1000 new Elementary Schools This is being carried out gradually

In 1912-13 & 1913-14, 271 new Govt schools have been sanctioned

With a view to stimulate the spread of education still further

2

The DI of Edn has submd proposals for starting one thousand aided Village Elementary Schools in the villages noted in the list sent by him; and requests sanction to the following proposals made by him

(i) he may be empowered to substitute other places for villages named in the list

(ii) that it be specifically laid down that each guardian is to contribute 40 to 60 seers of grain per pupil per annum

(iii) and that in modification of the grant in-aid rule he may be authorized to disburse monthly a grant of Rs 5 to 7 per month for each school instead of Rs. 48 per year for each teacher plus & as to + Re 1 per pupil per annum

3 The cost of the 1000 Schools viz ed Rs 84000 per annum calculated at the maximum rate of Rs 7 per school p m is proposed to be met from the provision made in the triennial programme approved in GO no H 7281-326/G 7 183-12-1 G 17 6 13

4 The proposals of the DG virtually amount to the starting of a lower class of Govt primary schools with lower pay than the minimum of Rs 10 prescribed for each teacher, and to the imposition of fees in kind on pupils which is not in consonance with the policy of Govt that primary education in Govt schools must be free

Seems to be
There is a keen demand for education everywhere & it is believed that the people will gladly come forward to open schools on an aided basis thus bearing a portion of the cost of the schools

5 Though the proposals of the DG involve a slight departure from the grant-in-aid rules recently sanctioned yet in view of the necessity to provide the spread of education as much as possible, ~~the effort and funds of Govt should be supplemented by private agencies and local organizations~~ The Scheme of aided Elementary Schools put forward

The departure may well be made to stimulate the increase of Primary Schools to a desirable extent

by the DI may therefore be approved with the following modification

Instead of each guardian being made to pay a fixed contribution in kind, arrangements may be made in the case of these schools by which the village as a whole will undertake to maintain the school supplementing with their own contribution the grant paid by Govt so that the total remuneration of the teacher may amount to Rs- 10 per mensem These contributions may take the shape of an annual gift of grain officially commutable to a money payment- as suggested by the DI

6 The DI has agrees ~~applicable~~ to these proposals and he also suggests that certain conditions and standards should be observed when starting new schools These appear to be suitable and may be adopted

7 A draft order embodying these proposals is also put up

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

D 4611

No 10156/527 *Bangalore* 5th February 1914

From Rao Bahadur
M SHAMA RAO Esq M A
Inspector General of Education in Mysore

To
C S Balasundaram Iyer Esq B A
Secretary to the Government of
His Highness the Maharaja of Mysore
Departments of Education & Agriculture
BANGALORE

SIR

With reference to Government Order No 1633-34/Edn 37-12-2 dated 20th August 1912 accepting generally the proposals of the meeting ~~of the~~ Education Committee of the Economic Conference for the improvement of education in the State I have the honour to append a list containing the names of one thousand villages in the several districts of the State where it is intended to start aided village Elementary Schools as many as possible before the end of the present official year and the rest before the end of the next official year The places noted in the list have been selected a they have a large population generally about 600 and more and as it is possible to obtain suitable buildings from the villagers for the location of the schools I request that the list may be approved

approved by Government and the Inspector General authorised to arrange for starting aided schools in them through the agency of the District Committees of the Economic Conference or through private or other agencies as may be found The Inspector General may also be vested with discretion to substitute other places for the villages named where owing to local circumstances for the time being it may be difficult or unnecessary to start a school at once

2 As regards the aid to be given to these schools by Government Rule V(1) of the New Grant-in-aid Code sanctioned in Government Order No 7067/Edn 312-12-4 dated 20th January 1914 makes provision generally for giving a grant of Rs 48 per year for each teacher and eight annas for each pupil in standards below the 3rd twelve annas for each pupil in standards 3rd and 4th and one rupee for each pupil in the 5th standard in average daily attendance In addition to this help from Government the villagers are expected to provide buildings for the schools started and to pay private contributions to the teachers employed in aided schools In practice however it is found that the parents of richer boys try to put off payment of such contributions on account of the influence they wield in the village the teacher being powerless or unwilling to enforce payment for fear of incurring their displeasure and losing even

the small income that he may be getting It appears to me therefore necessary that it should be specifically laid down what the minimum is that each parent is expected to contribute for his child's education on pain of the pupil being sent away from the school in case of non-payment In my opinion the villagers generally find it convenient to give a contribution in grain at the harvest time Such contribution is even now being willingly paid by them to the village washerman carpente: blacksmith and others although to the village Thoti and Thalfar: they are reluctant to pay on the plea of their being mere employees of Government I therefore propose that each parent of a pupil attending a school should contribute from 40 to 60 seers of "ragi" "paddy" or other grain per pupil per annum as may be fixed by the Inspector General say for a fixed period of generally 3 years a revision being made if necessary after that period It may be made also optional to commute the grain contribution into a money contribution

3 As regards the payment of the Government share of the grant-in-aid a temporary variation may also be made in the manner of payment of the grant As rule 5 (1) of the grant-in-aid Code stands at present there is no authority for the Inspector General to disburse the grant for each teacher on monthly bills and this difficulty will stand much in the way

of private persons coming forward freely to start schools in places other than those where they live or have some means of living of their own People without such means cannot afford to wait for a year and take payment in a lumo sum at the end of the year Further the clause regarding the disbursement of an annual grant of annas 8 to Re 1 per pupil per annum needs also to be relaxed for 2 or 3 years to come as the teacher on account of his poverty requires immediate help I therefore beg to propose that in cases where it is found that monthly payments of the Government grant-in-aid will help to bring into existence private schools at once and give them some stability also the Inspector General may be authorized to disburse at once from the date of recognition the amount of grant varying from Rs 5 to Rs 7 per month according to the standard of the school and the circumstances of the place

4 Concerning the cost even calculating at the maximum rate of Rs 7 for each school for 1000 schools the annual cost will be Rs 84 000 and as per triennial programme of expenditure approved in Government Order No Jl J281-326 S7 183-12-1 dated 17 June 1913, the provision made for Primary Education will suffice to meet the charge Each school will be placed under a Committee of the Villagers and may also be supervised by the Progress Committee of the Taluk or the District Committee of

the Conference

5 For the current official year, the cost of the schools to be started will be met from the special provision of one lakh All appointments of school masters under this scheme will be subject to the approval of the Inspector General or other officer concerned thereby avoiding the entertainment of inefficient men It may also be laid down that successful aided school masters will be taken to the Government service from time to time as vacancies are found As a further inducement for good work and for keeping up a high standard of efficiency it will be necessary to convert periodically a number of the successful schools say about a third into Government institutions

6 I request that the Government may be pleased to pass very early orders on these proposals I may add that a few experimental schools started on these lines are already showing signs of success and the people of the places where they are working are also showing eager interest in them

I have the honour to be

Sir

Your most obedient servant

M Ramma Rao

Inspector General

schools as recommended by him and to substitute whenever necessary the names of other villages for those ~~already~~ mentioned in the list appended.

2. While Government reserve for separate consideration the question of a reconsideration of the policy of free primary education in Government Schools laid down in 1908, they feel that in order to promote the spread of education as widely as possible, the efforts and funds of Government should be supplemented by private agencies and local organisations which should bear an appreciable part of the cost of Education

The scheme of aided Elementary schools put forward by the Inspector-General of Education appears well suited to evoke and organise local effort in the rural areas of the State. In the case of these schools, therefore, Government approve of arrangements being made by which the village as a whole will undertake to maintain the

(Here print the letter in extenso)

Order thereon - No 12022-42 Edn 30-13-3

Dated, Bangalore, 30th May 1914

****

The Irspector General of Education is authorized to start aided village Elementary schools as recommended by him and to substitute whenever necessary the names of other villages for those mentioned in the list appended

2 Government feel convinced that in order to promote the spread of education as widely as possible, the efforts and funds of Government should be supplemented by private agency and local organizations which should bear an appreciable part of the cost of education and the question whether in the light of this and other considerations, the policy of free primary education in Government schools laid down in 1908 ~~stands~~ in need of modification is engaging attention separately

3 There is a manifest desire on the part of the people in many parts of the State to undertake a portion of the responsibility in providing elementary education The scheme

177

aided Elementary schools put forward by the Inspector General of Education appears well suited to evoke and organize local effort in the rural areas of the State Government are therefore pleased to approve generally of the principles laid down and accord sanction to the proposal to make the village as a whole responsible for maintaining the aided school and the payment of a suitable salary to the teacher by supplementing with their own contribution the grant paid by Governmert, so that the total remuneration of the teacher may amou to about Rs 10/- per mensem These contributions may take the shape of an annual gift of grain (ragi or rice) optionally commutable to a money payment as suggested by the Inspect General of Education

4 The Inspector General of Education is authorized to sanction grants to these schools under Rules V of the Grant-inAid Rules and under Rule X (4) these grants may be disbursed monthly, a certified copy of the attendance roll of the school being given on the reverse of the bills for payment of the grants Where such schools exist and meet the needs of the village concerned, Governmert schools should not be started As suggested by the Inspector General, the schools should be placed under a committee of villagers and the Taluk Progress Committee may also, when they undertake to do so, be allowed to supervise the general working of these schools

All appointments of school masters under the scheme will be subject to the approval of

C878

the Inspector General Efficient masters of such schools may be taken to the Government service from time to time and a certain number of successful schools may be converted into Government schools

Government also direct that the following conditions and standards should be observed when starting new schools -

(i) A school to be opened must be in an area which has not already a sufficient number of schools for the whole population

(ii) The services of persons who have passed at least the Lower Secondary Examination should be secured as far as possible for employment in these schools All unpassed candidates seeking employment should be required to produce from an Inspecting officer not below the rank of a District Educational Officer that they are eligible for employment in an aided school

(iii) A suitable building is forthcoming

(iv) There should be at least 15 children on the rolls of the schools to be opened with a daily average attendance of 10

6 The cost will be met from the source pointed out by the Inspector General of Education in the letter read above

to be furnished

Proceedings of the Government of His Highness the Maharaja of Mysore

READ—

Letter No 10106—527 dated the 5th February 1914 from the Inspector General of Education in Mysore submitting proposals to start one thousand Village Elementary Schools in the State

With reference to Government Order No 1633 34—Edn 37 12 2 dated 20th August 1912 accepting generally the proposals of the Education Committee of the Economic Conference for the improvement of education in the State I have the honor to append a list containing the names of one thousand villages in the several districts of the State where it is intended to start Aided Village Elementary Schools as many as possible before the end of the present official year and the rest before the end of the next official year The places noted in the list have been selected as they have a large population generally about 600 and more and as it is possible to obtain suitable buildings from the villagers for the location of the schools I request that the list may be approved by Government and the Inspector General authorized to arrange for starting aided schools in them through the agency of the District Committees of the Economic Conference or through private or other agencies as may be found The Inspector General may also be vested with discretion to substitute other places for the villages named where owing to local circumstances for the time being it may be difficult or unnecessary to start a school at once.

As regards the aid to be given to these schools by Government Rule V (1) of the New Grant in aid Code sanctioned in Government Order No 4067—Edn 312 12 4 dated 20th January 1914 makes provision generally for giving a grant of Rs 48 per year for each teacher and eight annas for each pupil in standards below the 3rd twelve annas for each pupil in standards 3rd and 4th and one rupee for each pupil in the 5th standard in average daily attendance In addition to this help from Government the villagers are expected to provide buildings for the schools started and to pay private contributions to the teachers employed in aided schools In practice however it is found that the parents of richer boys try to put off payment of such contributions on account of the influence they wield in the village the teacher being powerless or unwilling to enforce payment for fear of incurring their displeasure and losing even the small income that he may be getting It appears to me therefore necessary that it should be specifically laid down what the minimum is that each parent is expected to contribute for his child's education on pain of the pupil being sent away from the school in case of non payment In my opinion the villagers generally find it convenient to give a contribution in grain at the harvest time Such contribution is even now being willingly paid by them to the village washerman carpenter blacksmith and other although to the village Toti and Talari they are reluctant to pay on the plea of their being mere employees of Government I therefore propose that each parent of a pupil attending a school should contribute from 40 to 60 seers of ragi paddy or other grain per pupil per annum as may be fixed by the Inspector General say for a fixed period of generally three years a revision being made if necessary after that period It may be made also optional to commute the grain contribution into a money contribution

As regards the payment of the Government share of the grant in aid a temporary variation may also be made in the manner of payment of the grant As Rule 5 (1) of the Grant in aid Code stands at present there is no authority for the Inspector General to disburse the grant for each teacher on monthly bills and this difficulty will stand much in the way of private persons coming forward freely to start schools in places their other than those where they live or have some means of living of their own People without such means cannot afford to wait for a year and take payment in a lump sum at the end of the year Further the clause regarding the disbursement of an annual grant of annas 8 to 1 e 1 per pupil per annum needs also to be relaxed for 2 or 3 years to come as the teacher on account of his poverty requires immediate help I therefore beg to propose that in cases where it is found that monthly payment of the Government grant in aid will help to bring into existence private schools at once and give them some stability also the Inspector General may be authorized to disburse at once from the date of recognition the amount of grant varying from Rs 5 to Rs 7 per month according to the standard of the school and the circumstances of the place

Concerning the cost even calculating at the maximum rate of Rs 7 for each school for 1 000 schools the annual cost will be Rs 84 000 and as per triennial programme of expenditure approved in Government Order No Fl 7?81 326 -G F 183 12 1 dated the 17th June 1913 the provision made for Primary Education will suffice to meet the charge Each school will be placed under a Committee of the villagers and may also be supervised by the Progress Committee of the taluk or the District Committee of the Conference

For the current official year the cost of the schools to be started will be met from the special provision of one lakh All appointments of schoolmasters under this scheme will be subject to the approval of the Inspector General or other officer concerned thereby avoiding the entertainment of inefficient men It may also be laid down that successful aided school masters will be taken to the Government service from time to time as vacancies are found As a further inducement for good work and for keeping up a high standard of efficiency it will be necessary to convert periodically a number of the successful schools say about a third into Government institutions

I request that the Government may be pleased to pass very early orders on these proposals I may add that a few experimental schools started on these lines are already showing signs of success and the people of the places where they are working are also showing eager interest in them

---

No 12022 4—Edn 304 13 3, dated Bangalore, 30th May 1914

Order thereon – The Inspector General of Education is authorized to start Aided Village Elementary Schools as recommended by him and to substitute whenever necessary the names of other villages for those mentioned in the list appended

2 Government feel convinced that in order to promote the spread of education as widely as possible, the efforts and funds of Government should be supplemented by private agencies and local organizations which should bear an appreciable part of the cost of education, and the question whether in the light of this and other considerations, the policy of free primary education in Government Schools laid down in 1908, is in need of modification is engaging attention separately

3 There is a manifest desire on the part of the people in many parts of the State to undertake a portion of the responsibility in providing elementary education The scheme of aided Elementary Schools put forward by the Inspector General of Education appears well suited to evoke and organize local effort in the rural areas of the State Government are therefore pleased to approve generally of the principles laid down and accord sanction to the proposal to make the village as a whole responsible for maintaining the aided school and the payment of a suitable salary to the teacher by supplementing with their own contribution the grant paid by Government, so that the total remuneration of the teacher may amount to about Rs 10 per mensem These contributions may take the shape of an annual gift of grain (ragi or rice) optionally commutable to a money payment as suggested by the Inspector General of Education

4 The Inspector General of Education is authorized to sanction grants to these schools under Rule 5 of the Grant in aid Rules and under Rule X (4) these grants may be disbursed monthly, a certified copy of the attendance roll of the school being given on the reverse of the bills for payment of the grants Where such schools exist and meet the needs of the village concerned Government schools should not be started As suggested by the Inspector General, the schools should be placed under a Committee of villagers and the Taluk Progress Committee may also, when they undertake to do so, be allowed to supervise the general working of these schools

All appointments of schoolmasters under the scheme will be subject to the approval of the Inspector General Efficient masters of such schools may be taken to the Government service from time to time and a certain number of successful schools may be converted into Government Schools

5 Government also direct that the following conditions and standards should be observed when starting new schools —

(i) A school to be opened must be in an area which has not already a sufficient number of schools for the whole population

(ii) The services of persons who have passed at least the Lower Secondary Examination should be secured as far as possible for employment in

these schools All unpassed candidates seeking employment should be required to produce from an Inspecting Officer not below the rank of a District Educational Officer that they are eligible for employment in an aided school
